SUBJECT: JTA SYSTEM VERSION 4.26 RELEASE

Release notes are provided only for information purposes to the Welfare-to-Work Agencies. Changes to the Job Training Automation (JTA) system do not affect the Welfare-to-Work Programs. The Workforce Investment Division will release the JTA System, Version 4.26 on the weekend of May 23, 2003. This release includes additions to the Workforce Investment Act (WIA) Base Wage Table. The new additions are the California and Wage Record Interchange System indicator characters. Also, a detail line was added to the WIA Performance and Participant Reports heading, the reports now say: "Data as of MM/DD/YYYY" at the top of the report. A detailed description of the software changes is attached. The JTA system software will be available beginning Monday, May 26, 2003.

Note To Timeshare JTA System Users—This release will be installed over the weekend. Please do not access your system from Friday, May 23, 2003, at 6 p.m. through Monday, May 26, 2003 at 8 a.m.

Note To Standalone JTA System Users—The release files can be accessed from the Shasta County Private Industry Council's server site on Wednesday, May 28, 2003. Release 4.25 must be installed prior to the installation of this release.

The new programs and enhancements are a result of program requirements and calls made to the JTA Help Desk.

Should you have any questions regarding this JTA system release, please call the JTA Help Desk at (916) 653-0202.

JOB TRAINING AUTOMATION (JTA) SYSTEM VERSION 4.26

WIA System

Programs Modified

Log #5645 EWIE (Enter WIA Enrollment/Registration Form)

Modified the program to allow users with viewing access only to scroll down to see the client's entire enrollment information. Viewing access means the user cannot add, update and delete data in the JTA screens.

Log #5613, 5725 EWIT (Enter WIA Exit Form) LWIT (Load WIA Exit Form) XWID (Extract WIA Data)

Modified programs so the exit date is the same as the maximum activity completion date on the WIA Enrollment Form. This change will not allow exit dates to occur after the last activity completion date.

Added an edit on the WIA Exit Form to allow only Younger Youth clients to use Exit Code "16 - Returned to Secondary School."

Log #5743 LWIA (Load WIA Activity)

Modified this program to correct a system error message. The program displayed an error message even when proper data characteristics were entered. Additionally, the program has been adjusted to allow co-enrolled clients to receive intensive and training services within the second application (co-enrolled program) if a Core activity has been recorded under the first client enrollment record.

Log #5736, 5745**PLWIB (Print WIA Base Wage Report)**

Added a one character indicator after all wage fields on the report. California (CA) only wages will display a blank in the field, Wage Record Interchange System (WRIS) only wages will display a "R" in the field, and both WRIS and CA wages will display a "B" to indicate the wages come from both sources.

Added "Data as of MM/DD/YYYY" to PWIB and PLWIB report headings. The date reflects the date that the wages were transmitted from the Labor Market Information Division (LMID).

Log #5747**PLWPD (Print Local WIA Performance Detail Report)****PLWPO (Print Local WIA Performance Outcomes Report)****PLWPS (Print Local WIA Performance Standards)****PLWRS (Print Local WIA Performance Roster)****PVWP (Print Local Veteran's WIA Participant Report)****PLAAM (Print Local WIA Additional Annual Performance Measures Report)****PWIP (Print Local WIA Participant Report)**

Added the following detail line to the performance and participant reports heading: "Data as of MM/DD/YYYY." The date reflected is the date the performance calculation was run.

Log #5694, 5744**PWIP (Print Local WIA Participant Report)****XWIP (Extract Local WIA Participant Report)**

Added Foster Youth detail line to Part J and renamed parts II.B. and II.C of report. Also, added part II.B.1 and II.B.2 to display a count for Older Youth and Younger Youth who are being served under the 5% window eligibility.

Log #5751, 5746, 5742**PWCAR (Print WIA Client Action Report)**

Fixed the program to display the correct "Action Due Date" on the report for the third quarter follow-up.

Fixed the program to correctly identify the clients that belong to certain grant codes for the soft exit category only.

Log #5750**XLWPR (Extract and Calculate WIA Performance)**

Programming has been edited to allow users to run the Extract and Calculate WIA Performance program. In the past the program was displaying an error message saying: "SQL Error: 255 – Not in transaction."

Log #5755**ESTAF (Enter Staff Data)**

Modified the programming to prevent this program from displaying duplicate listing of the agency codes.

Log #5752**LWID (Load WIA Data)**

Modified LWID program to keep processing all records and files even when there are errors. The program will not stop processing subsequent records after it encounters records with errors. An error report will be generated displaying all errors encountered during the load process. Users must fix errors in order for the program to load data into the stateside database.
